Covid-19 Safety Guidelines

To allow for the safety of our staff and the customers during the current pandemic, please be aware of the following points.

- Please let us know if anyone in the house is self-isolating. If this happens, we will not be able to carry out the work until the quarantine has ended, and will re-book the work.
- Please prepare in advance. If our staff are unable to work in your home because of safety issues will have to re-arrange the fitting date.
- Clean all surfaces in the room to allow as little contact as possible on the day of fitting.
- Clear room of all movable items, and move large furniture ready to be covered with dust sheets.
- If possible, we would like to use an outside tap and a toilet separate from the main house eg downstairs cloakroom, if you have one.
- In order to minimise contact - whenever possible, please try to limit entry to the room while the work is being carried out.
- Pets should be kept out of the room at all times.
- The room should be kept well ventilated. (And left empty for up to 72 hours if possible.)

If you have any questions or concerns please contact us
